

## **Application to Higher Circus Education, Academy of Modern Circus, AMoC – a trial education in Copenhagen**

### **Educational goal: Entrepreneurial and creative artists**

The educational goal is to educate independent, conscious performers, with entrepreneurial skills who can work within different arenas of contemporary and future circus arts.

The education will give the student a foundation in artistic, theoretic and practical skills as well as inspire the student to develop a professional and individual artistic expression. The education will provide ongoing development as a creative artist both within a collective process as well as individually.

### **The structure of the education**

The education is a three-year fulltime education, including evening and weekend courses. It is not possible to have other employment while attending the education.

### **Language**

The teaching will be in Danish, Swedish, English and “mixed circus language”. It is a requirement to understand, speak and write in either one of the Scandinavian languages (Danish, Swedish and Norwegian) or in English.

**The applicant** must be in strong physical condition. They must present a sufficiently high level of skill in at least one circus discipline or an equivalent artistic/physical area, as well as exhibit artistic talent and a strong motivation.

**Acceptance to the education will happen only after the applicant has submitted the application material. Selected applicants will then be invited to participate in auditions that consist of showings, classes and interviews.**
